

**atmosphere**

[Quasimodo]

- has property system
- has property closed
- has color blue
- be held around the earth
- effect the temperature of the earth
- has property closed system
- interact with biosphere
- has property closed system briefly
- become as altitude increases
- be in space

[conceptNet] is capable of...

- rain drops of water

[conceptNet] is a type of...

- region
- weather

**from quasimido**

- atmosphere exert pressure on earth
- atmosphere rotate with earth
- atmosphere be outermost layer of earth
- atmosphere stay on earth
- atmosphere govern life on earth
- atmosphere exist on earth
- atmosphere protect earth
- atmosphere protect life on earth
- atmosphere stay around earth
- atmosphere be around earth

**they are both...**

- has property system
- has property closed
- has color blue
- has property closed system
- be in space
- have layers
- has color green
- has property heated
- can spin
- has temperature hot

**google-autocomplete**

- rotate with
- protect

**from quasimido**

- earth have atmosphere
- earth be planet with atmosphere

**they are both...**

- has property system
- has property closed
- has color blue
- has property closed system
- be in space
- have layers
- has color green
- has property heated
- can spin
- has temperature hot

**earth**

[Quasimodo]

- have layers
- have water
- have field
- have magnetic field
- have one moon
- be called water planet
- has temperature hot
- have atmosphere
- revolve around sun
- have oxygen

[conceptNet] has properties...

- spherical
- round like a ball
- finite
- one of many planets
- very beautiful
- flat
- very heavy
- spherical in shape
- revolving around the sun

[conceptNet] is capable of...

- receive rain from clouds

[conceptNet] is a type of...

- a word
- an oblate spheroid
- an oblate spheroid
- one astronomical unit from the Sun
- 4.5 billion years old

**they are both...**

- can work
- has property bad
- help us
